

## C2G 50ft (15.2m) Pro-Audio XLR Male to 1/4in Male Cable Part No. CG-40038

Use this XLR to 1/4in cable to connect unbalanced sources to balanced XLR inputs. This pro-audio cable is made from 22 AWG twisted pair audio cable under an aluminum foil shield and 60% copper braid for maximum shielding from noise. The highly flexible 7mm PVC jacket reduces the risk of the cable kinking and damaging the conductors.

Bright nickel plating on solid brass connectors resists wear from reconfiguring and moving equipment from one venue to another. Spring strain relief on the 1/4in plug and a chuck strain relief inside the XLR reduce the effects of age on the solder joints and contacts.

## Features & Benefits

Designed to to connect unbalanced sources to balanced XLR inputs

Spring strain relief on the plug and a chuck strain relief inside the XLR

Aluminum foil shield and 60% copper braid for maximum shielding from noise

## **Specifications**

General Info				
Product Line	C2G	Color	Black
