

C2G **3ft (0.9m) Pro-Audio XLR Male to XLR Female Cable** Part No. CG-40058

Use this XLR to XLR cable to connect unbalanced sources to balanced XLR inputs. This pro-audio cable is made from 22 AWG twisted pair audio cable under an aluminum foil shield and 60% copper braid for maximum shielding from noise. The highly flexible 7mm PVC jacket reduces the risk of the cable kinking and damaging the conductors.

Bright nickel plating on solid brass connectors resists wear from reconfiguring and moving equipment from one venue to another. Spring strain relief on the 1/4in plug and a chuck strain relief inside the XLR reduce the effects of age on the solder joints and contacts.

Features & Benefits

22 AWG conductor construction	Foil and braided shield to protect from interference
Highly flexible jacket	Nickel-plated connectors
