

Audio/video installations in educational and commercial settings often require plenum-rated cabling. Our plenum-rated line was engineered to overcome common challenges faced by installers. The HD15 connectors are low profile (1.25in total depth) which saves valuable space in the gang box, while the rounded shape (fits 1.25in inner diameter mounts) accommodates smaller mounts so that the cable can be easily hidden from view. And our small-diameter (0.25in) cable design further reduces the space and clearance required to run the necessary cabling through walls and plenum air spaces.

This cable is constructed from three 75 0hm 30 AWG coaxial cables plus one 26 AWG twisted pair wire to ensure RGBHV signal integrity in your installation.

The coax cables feature a tinned copper braid that provides 92% shielding. The twisted pair is individually shielded with an aluminum polyester tape to provide 100% coverage. CMP rating provides the fire protection required to run within walls and air plenums without the need for conduit.

SXGA provides a screen resolution of 1280 x 1024 pixels.

Please Note: Pin 9 is not loaded. Pin 9 is not required for standard computer video applications.

## Features & Benefits

Plenum, CMP-Rated jacket	Rounded connectors for easily installation
Supports up to a 1280x1024 resolution	Foil and braided shield to protect from interference

## Specifications

General Info				
Product Line	C2G	Color	Black	
UPC Number	757120400912	Country Of Origin	China	
Application Sector	Commercial, Residential	Warranty Type	Lifetime	
Туре	Cable			
Dimensions				
Product Length US	15.0 FT	Cable Length	15 ft	
Technical Information				
Jacket Material	PVC (Polyvinyl Chloride)	Wire Gauge	30 AWG	
Video Resolution	SXGA (1280x1024)	Jacket Application	Plenum Rated	
Cable Type	Video	Jacket Rating	CMP Rated, FT6 Rated	
Cable Diameter	6.3 mm	Adapter Rear	VGA Male	
Adapter Front	VGA Male	Voltage	300.0 V
