

The 3.5mm stereo audio extension cable is perfect for extending an existing 3.5mm cable in audio applications. This cable increases the distance from devices such as MP3 or CD players, tablets, speakers, PC/TV tuners and other audio devices, allowing the device to be placed in the most convenient location. Fully molded connectors provide excellent strain relief while nickel plated contacts provide superior connectivity and a durable, long life.

## Features & Benefits

Extend a 3.5mm cable up to 50ft

Play your tablet, MP3 or tuner audio from across the room

Plug and play

## Specifications
