

## C2G 15ft (4.6m) C2G Plus Series Standard Speed CL2P HDMI® Cable With Gripping Connectors - CL2P - Plenum Rated Part No. CG-42528

Strict building code requirements for cabling in plenum spaces have created installation challenges in settings such as schools, hospitals, and other commercial buildings. This CL2P rated cable meets all requirements for commercial, industrial, hospital, and school spaces that require CL2P plenum cable to be installed.

C2G Plus Series HDMI Cables with Gripping Connectors are designed to connect multimedia devices in an office, meeting room, or other commercial environments. Ensure that your most critical equipment maintains signal with the gripping connectors, which provide greater port retention than a standard HDMI connector. Gripping connectors limit the chance the cable could be accidentally disconnected. No need for special locking sockets, tie downs or screws.

Gripping connectors

Make every presentation count by delivering crisp audio and pristine high definition video to any audience. Whether streaming video or displaying a presentation, this cable is an ideal solution to provide content in demanding environments.
