

The USB-C 7-in-1 Dual Display MST Docking Station connects to USB-C enabled laptops and is the perfect dock for a dual display solution, when traveling for business or when working from home – making it ideal for inside and outside reps that need the essential connectivity while in the office, at home, or on the go.

This USB-C Dual Display MST docking station supports connected devices, such as keyboards, mice, portable hard drives, and other peripherals, all while supporting up to 100W of power delivery to charge and power a laptop. The maximum power capacity depends on how much power the connected adapter can supply. The right amount of power is necessary to keep the laptop battery charged, for all connected devices to function, and for the dock to provide that connectivity.

The MST feature allows for two different display configurations on dual monitors connected to a single source with a USB-C output. MST is great for multiple display desk setup – improving multitasking and productivity. The MST dual display feature supports resolutions up to 1920 x 1080 at 60Hz. The docking station will support 4K (3840 x 2160) at 60Hz resolution when using the DisplayPort or HDMI port independently. The USB-A ports support SuperSpeed USB 5Gbps data transfers allowing a full HD movie to be downloaded in under a minute. The USB-C port supports SuperSpeed USB 10Gbps allowing for twice the amount of data in the same amount of time as the USB-A ports. Optimize performance by connecting displays designed for 1080p or 4K signals and USB-C devices designed for 10Gbps transfer speeds. The Ethernet port allows for reliable internet connectivity with file transfer speeds up to 1G.

This docking station has been tested with Windows and Mac operating systems. It is compatible with both operating systems – please note that the MST feature is not supported by MacOS and will only duplicate dual screens.

Features & Benefits

Supports up to 100W of power delivery to keep your laptop charged	Multi-Stream Transport (MST) allows two different display configurations on dual monitors
Supports resolutions up to 4K, for viewing your screen content at full HD	Supports dual display resolutions up to 1080p
USB-A and USB-C ports for fast data transferring.	Hard wired Ethernet port for when security requires it or when WiFi™ is not available.
Storage compartment for included USB-C M/M cable, readily available when you need it	Reversible, symmetrical USB-C connector, so no guessing how to plug it into your laptop
Compatible with Windows, Mac, and Linux operating systems.	5-year warranty, for peace of mind – with the highest quality docking stations.

Specifications

General Info

Product Line	C2G	Color	Black
UPC Number	757120545439	Country Of Origin	China
Features	Dual Display	Application Sector	Commercial, Residential
Warranty Type	5-Year	Type	Docking Station

Dimensions

Product Width US	5.0 in	Product Depth US	2.09 in
Product Height US	0.53 in
