

C2G
Discontinued - Extreme Networks® 10301 Compatible 10GBase-SR SFP+ Transceiver Module with Digital Optical Monitoring (Multimode, 850nm, 300m)
 Part No. CG-10301-LEG

This Extreme Networks 10301 compatible SFP+ transceiver provides 10GBase-SR throughput up to 300m over multi-mode fiber (MMF) at a wavelength of 850nm connector. Digital optical monitoring (DOM) support is also present to allow access to real-time operating parameters. Our transceiver is guaranteed to be 100% with the equivalent Extreme Networks transceiver. This easy to install, hot swappable transceiver has been programmed, uniquely serialized and data-traffic and tested to ensure that it will initialize and perform identically. It is built to meet or exceed the specifications of Extreme Networks, as well as to comply with multi-s agreement (MSA) standards to ensure seamless network integration.

[B]Please Note: [B] Installing Legrand transceivers does not void your network equipment warranty. Network equipment manufacturers all have guidelines stating warranty support on their products will not be affected by installing a Legrand or any third party transceiver.

Features & Benefits

Functionally identical to Extreme Networks 10301

Transceiver type SR allows for connections up to 300m

850nm wavelength signaling

High speed 10-Gigabit connectivity

LC ports designed for use with Multimode fiber

Supports Digital Optical Monitoring (DOM)

Specifications

General Info

Product Line	C2G	Color	Silver
UPC Number	757120669937	Country Of Origin	United States
Application Sector	Commercial, Industrial	Warranty Type	Lifetime
Type	Transceiver		

Technical Information

Fiber Optic Cable Type	Multimode	Max Distance Support	300 m
Connector 1	SFP Male
